## Poster Acceptance and Creation

If your poster is accepted, you will receive written confirmation from the conference organizers. At this point, you can get started on creating your poster.

### POSTER GUIDANCE

The conference will assign a specific space for posters to be set up. A structure for your poster will be provided by the conference; these structures measure 8' x 4' (243 x 121 cm). Poster content cannot exceed these measurements. Oversized materials must be trimmed.

Before the conference, you will receive a poster number. Once you arrive on-site, look for the structure with your number and set up your poster there.

Posters can be landscape or portrait. Posters should have a title and the name of the researcher(s), their affiliation(s) and their email address(es) clearly presented. Push-pins will be provided. Audio/visual equipment and computers are prohibited at poster displays.

### Researchers should ensure that:

- > Important information is readable from about three feet away.
- > The title is short and draws interest.
- > The text is clear and to the point.
- > The use of bullets, numbering and headlines presents the information clearly.
- > Graphics, color and fonts are used effectively.
- > The layout is consistent and clean.
- > The poster has a person on-site during all breaks and scheduled poster review opportunities (check [legionellaconference.org](http://legionellaconference.org) closer to the event date for a final schedule, showing dedicated breaks).
